In re: Wifredo G. Blanco-Pi
NEW(AM), Guayama, Puerto Rico
Facility Identification Number: 181037
File Number: BPEX-20090706AHD

Dear Mr. Blanco-Pi:

This letter is in reference to your above-captioned minor change application for a new AM synchronous experimental facility for station WISO(AM), Ponce, Puerto Rico, to be located in Guayama, Puerto Rico.

A preliminary review of the application reveals that the proposed 0.5 mVm daytime and nighttime groundwave contours are outside the licensed WISO(AM) 0.5 mV/m day and night contours. As discussed in the MO&O MM Docket No. 87-6, released January 13, 1989, experimental synchronous transmitter contours must be within the main station licensed contours.

Accordingly, under Section 0.283 of the Commission's Rules, the application (File No. BPEX-20090706AHD) is hereby DISMISSED as unacceptable for filing.

Sincerely,

Son Nguyen
Supervisory Engineer
